

WELCOME TO BEING A LIVE WELL COACH...

Conducting an effective healthy living program is more than just selling some nutrition products. To set up your Client for success, you need a structured plan for support, follow-up, motivation, and guidance. Ultimately establishing a relationship that can be nurtured and grown... as we have found that is the best way to lead to future referrals.

Do you want see your 30 day participant become a life long Arbonne product user?
Do you want to see that they start to use other product lines after their initial intro to Arbonne?

Do you want to see that as they are completing the program & after they are referring people to join us on their own journey to LIVING WELL?

Do you want to see that after they see how the referrals can pay them a commission they decide to upgrade and join us as a LIVE WELL COACH?

If these are things you would like to see in your business & on your team... THEN building relationship with our participants is VITAL! **Do NOT miss this part.** We do not want to ONLY throw them into the Facebook group for the current group leader to guide them. We want to stay closely connected to them treating them as if they were hosting an actual presentation.

Work closely with your sponsor/VP to set up the monthly participant tracker & texts. It will take a few sessions to feel comfortable with this process & become an awesome LIVE WELL LEADER... creating a ripple effect that will change countless lives! 😊
